

Maria D. Campbell

New York, NY · interglobalmedia@gmail.com · [linkedin.com/in/mariacampbell](https://www.linkedin.com/in/mariacampbell) · github.com/interglobalmedia · mariadcampbell.com

SUMMARY

Developer with a focus on Linux/Unix systems and Python/Django, and a writer who documents what I build along the way. I dig into why one approach beats another, not just how either one works: an instinct that shows up equally in my code and my writing. Available for remote-first work.

EXPERIENCE

Technical Collaboration with Claude, Freelance — New York, NY May 2026 – Present

Work as a team with Claude, who serves as technical editor (including fact-checking and verification), code reviewer, and project collaborator. Together we build project-specific checklists and topic-based playbooks for upgrading legacy projects and starting new ones. We maintain workflow files (e.g. `git-commit-messages.md`) to track progress across local repositories. Also collaborated on revamping mariadcampbell.com: retiring outdated posts, updating ones still worth keeping, and editing new writing before publication.

Adjunct Professor, Communication Design, New York City College of Technology — Brooklyn, NY Jan. 2020 – Dec. 2022

Taught Dynamic Web 1 (JavaScript) and Web Design 1. Transitioned coursework fully online during the COVID-19 pandemic using Blackboard, Discord, and GitHub for course delivery and student collaboration. Mentored students individually outside class sessions.

Trademark Database Management (via Inter-Global Media Network), Calvin Klein, Inc. — New York, NY 2017 – 2019

Managed Calvin Klein's Legal Department trademark system (CPI database), maintaining continuous communication with the legal team and applying close attention to detail.

Founder/President, Inter-Global Media Network, Inc. — New York, NY 2012 – 2024

Founded as a photography/video/social media venture; shifted focus to front-end and full-stack development in 2015. Built and maintained client and personal web applications, technical documentation, and presentations.

SKILLS

Linux/Unix · Command Line · Shell Scripting · Python · Django · Security & Encryption · Git/GitHub · JavaScript · React · Next.js · Node.js · SQL · HTML5/CSS3 · Technical Writing & Documentation

PROJECTS

Selected work spanning Python/Django, Linux, security, and full-stack JavaScript, viewable at mariadcampbell.com/projects. Python, Linux, and security-focused projects (Django Boards, file encryption, steganography vs. cryptography, Wireshark vs. tcpdump) are currently in the process of being published to the site.

ACHIEVEMENTS

Organizer: [The Debug Table, an in-person tech meetup, founded 9.23.26](#)

Published: [affine-cipher, a Python cybersecurity/cryptography project, on PyPI](#)

Creator: Project modernization/new-project playbooks and migration checklists, spanning legacy JS project upgrades and Python cybersecurity/crypto projects

Creator: Cmdbook, personal command-line reference

Creator: Personal scratch-file workflow (commit-message drafts, terminal-output logs, running notes) used across projects

Presenter: React Workflow Presentation — React NYC Meetup, 9.28.17

Presenter: Evolution in Design and Development — React Camp, 11.18.17

Open: to speaking and presenting opportunities

EDUCATION

The Linux Foundation — An Introduction to Linux (LFS101) *July 2024 – In Progress*

LinuxJourney.com *July 2024 – In Progress*

Google Cybersecurity Professional Certificate, Coursera *July 2023 – Oct. 2023*

New York Coding and Design Academy, NY NY — Evening Full Stack JavaScript Intensive *Jan. 2018 – June 2018*

New York Coding and Design Academy, NY NY — Web Development 100 & Front End Development 101 *Sept. 2015 – Feb. 2016*

Columbia University School of International and Public Affairs, NY NY — Master of Arts, International Affairs — International Finance and Banking, Eastern European Studies concentration

Barnard College, NY NY — Bachelor of Arts, French Literature

Fashion Institute of Technology, NY NY — A.A.S., Fashion Design, Lingerie Specialization
